BROKER CONNECT

Access to Many Brokers With
Just One Technical Interface

TOMAS FORT,
HEAD OF SALES &
ACCOUNT
MANAGEMENT, MACD:

*'We are independent,
neutral and maintain
a close relationship
with all brokers. Each
broker offers its own
functionalities, which we
support, so that you as
a customer can decide
which of the services
brings maximum benefits.'*

MAX BROKER CONNECT

We connect you to a large number of brokers who have international stock exchange connections - with only one technical interface.

MAX Broker Connect supports all asset classes in the securities sector. Order Routing, supported by the integrated Rule Engine, routes the orders to the right broker. Depending on the broker, special order types and algorithms are supported.

Using the Rule Engine GUI, you can set up and immediately activate trading rules for orders, placements, modifications, deletions and executions (straight through processing). Changes can be made quickly and flexibly.

We would be happy to expand the list of current MACD brokers based to your requirements.

BROKER / NETWORKS / FUNDS TRADING

BROKER

- ✓ Basler Kantonalbank
- ✓ BEKB | BCBE
- ✓ Berenberg
- ✓ BNP Paribas
- ✓ Credit Suisse
- ✓ Pictet

- ✓ SIX Global Fund Service

TAILORED CONNECTIVITY

A connection to your bank and order management system is possible. We support various interfaces.

Here you get more information: [MACD Partner](#)

MACD BROKER PROGRAM

Advantages: The broker pays a significant part of the annual fees, which means lower costs for the client. Smaller changes to broker interface are implemented by MACD without costs (e.g. algo parameters, FIX tag changes etc.). MACD customers can thus save costs.

THE FOLLOWING BROKERS PARTICIPATE:

Vontobel

MAX SERVICES

CHOOSE MORE MAX FUNCTIONALITIES

We will put together a product tailored to your needs. Of course, every MAX functionality also includes our base services, such as technical account management, support and a personal relationship.

You can find more information in our [MAX Trading System brochure](#) and on our [website](#).
