MACD COMMUNITY

We support the discussion on current and forward-looking topics within the MACD network, which benefits all participants. It also influences the early, targeted ongoing development of our products with regard to new requirements within the financial sector.

In particular, our Sales & Account Management team activates communication on MACD-independent topics, e.g. regulations, processes, efficiency gains and IT, in order to develop joint solutions.

Once a year we invite to the MACD Conference in Zurich to enable personal exchange within the community. Besides networking, the focus is on presentations or panels on the topics of the future.
